

Reliance on this promotion for the purpose of buying the units to which the promotion relates may expose an individual to significant risk of losing all of the property or other assets invested.

PRIVATE AND CONFIDENTIAL

DOMINIUM GLOBAL FUND

(a public company with limited liability incorporated as an open-ended expert fund under the laws of the Republic of Mauritius)

At an initial offer price of US\$ 10 per share

AMENDED AND RESTATED PRIVATE

PLACEMENT MEMORANDUM

THE SHARES ISSUED BY **DOMINIUM GLOBAL FUND** ARE NOT FOR SALE TO U.S. PERSONS EXCEPT IN A LIMITED NUMBER OF CASES AS DETERMINED IN THE SOLE DISCRETION OF THE BOARD OF DIRECTORS OF 3 NO PERSON HAS BEEN AUTHORISED IN CONNECTION WITH THIS OFFERING TO GIVE ANY INFORMATION OR MAKE ANY REPRESENTATIONS OTHER THAN AS CONTAINED IN THIS CONFIDENTIAL AMENDED AND RESTATED PRIVATE PLACEMENT MEMORANDUM AND ANY SUPPLEMENT. PLEASE DIRECT ANY ENQUIRIES TO THE ADMINISTRATOR.

THE PARTICIPATING SHARES OFFERED HEREBY HAVE NOT BEEN FILED WITH OR APPROVED OR DISAPPROVED BY ANY REGULATORY AUTHORITY OF ANY COUNTRY OR OTHER JURISDICTION, NOR HAS ANY SUCH REGULATORY AUTHORITY PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THIS CONFIDENTIAL AMENDED AND RESTATED PRIVATE PLACEMENT MEMORANDUM OR ANY SUPPLEMENT. ANY REPRESENTATION TO THE CONTRARY IS UNLAWFUL.

PRIVATE PLACEMENT MEMORANDUM NO.:_____ SUPPLIED TO:

IMPORTANT NOTICE

This amended and restated Private Placement Memorandum ("**PPM**") is submitted in connection with a private placement of non-voting redeemable Participating Shares of Dominium Global Fund ("the **Fund**" or "the **Company**") to a limited number of potential **expert investors**. This PPM must be read in conjunction with the Constitution of the Fund. The terms of any future offering in relation to any other Class created by the Fund will be documented by means of a Supplement.

The offering contemplated in this PPM is not, and shall not under any circumstances be construed as, a public offering of the Participating Shares described herein.

The Fund described in this PPM is incorporated in Mauritius and holds a Global Business License issued by the Financial Services Commission ("**FSC**") of Mauritius. The Fund is further authorised by the FSC to operate as a self-managed Collective Investment Scheme qualifying as an Expert Fund under the Securities Act 2005 and the Securities (Collective Investment Schemes and Closed-End Funds) Regulations 2008. This PPM will not be filed with or approved or disapproved by any other regulatory authority of any other country or any other jurisdiction, nor has any such regulatory authority, including the FSC, made any determination concerning the merits of this offering.

This PPM is confidential and intended solely for the use of the person to whom it has been delivered for the purpose of evaluating a possible investment in the Participating Shares described herein and is not to be reproduced or distributed to any other persons (other than professional advisers of the prospective investor receiving this document) or used, in whole or in part, without the consent of the Directors of the Fund, whose names appear on page 10 (the "**Directors**").

The value of the investments of the Fund, which may be designated in any currency, may rise or fall due to exchange rate fluctuations of individual currencies. Prospective investors should be aware that the price of Participating Shares and the income from them can go down as well as up and they may not realize their initial investment. Your attention is drawn to the section entitled "RISK FACTORS" below.

An investment in the Fund is only available for expert investors. As defined in the Securities (Collective Investment Schemes and Closed-end Funds) Regulations 2008, issued under the Securities Act 2005 of Mauritius, an expert investor is an investor who makes an initial investment, for his own account, of no less than US\$ 100,000 or is a sophisticated investor as defined in the Securities Act 2005 or any similarly defined investor in any other securities legislation.

A sophisticated investor:

- (i) the government of Mauritius;
- (ii) a statutory authority or an agency established by an enactment for a public purpose;
- (iii) a company, all the shares of which are owned by the government of Mauritius or a body specified in paragraph (ii);
- (iv) the government of a country other than Mauritius, or an agency of such government;
- (v) a bank;
- (vi) a collective investment scheme;
- (vii) a collective investment scheme manager;
- (viii) a pension fund or its management company;
- (ix) a closed-end fund;
- (x) an insurer;
- (xi) an investment adviser;
- (xii) an investment dealer;

- (xiii) an investor that warrants, at the time of entering into a securities transaction, that:
- (A) its ordinary business or professional activity includes the entering into securities transactions, whether as principal or agent;
 - (B) in case such investor is a natural person, his or her individual net worth or joint net worth with his or her spouse exceeds \$1,000,000, or its equivalent in another currency;
 - (C) it is an institution with a minimum amount of assets under discretionary management of \$5,000,000, or its equivalent in another currency; or
 - (D) a person declared by the FSC to be a sophisticated investor.

Investors in the Fund are not protected by any statutory compensation arrangements in Mauritius in the event of the Fund's failure.

The Mauritius Financial Services Commission does not vouch for the financial soundness of the fund or for the correctness of any statements made or opinions expressed with regard to it.

The FSC takes no responsibility for the contents of this PPM and shall not be liable to any action in damages suffered as a result of this PPM being registered with the FSC.

An investment in the Fund is only suitable for investors who are capable of evaluating the merits and risks of such investment. If you are in any doubt about the contents of this PPM, you should consult your stockbroker, bank manager, solicitor or other professional adviser.

No person has been authorised to issue any advertisement or to give any information, or to make any representations in connection with any offering, subscription or sale of Participating Shares,

other than those contained in this PPM and, if issued, given or made, such advertisement, information or representations must not be relied upon as having been authorised by the Fund. Neither the circulation of this document nor the allotment or issue of Participating Shares shall under any circumstances create any implication that there has been no change in the financial position or affairs of the Fund since the date hereof.

Statements made in this PPM are based on the law and practice of Mauritius as currently in force and are subject to changes in such law and rules. This PPM does not constitute an offer to sell or a solicitation of an offer to buy the Participating Shares (as defined herein) in the Fund described herein in any state or other jurisdiction where, or to any person or entity to whom, it is unlawful to make such offer or solicitation.

The Directors, accept responsibility for the information contained in this PPM. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this PPM is in accordance with the facts and does not omit anything likely to affect the import of such information. Unless otherwise indicated herein, the opinions expressed in this document are those of the Directors. No person has been authorised to give any information or to make any representation concerning the Fund other than the information contained in this document, and, if given or made, such information or representation must not be relied upon as having been authorised by the Fund.

The Statements and information contained in this PPM have been compiled as of [date] unless otherwise stated herein, from sources believed to be reliable. Neither the delivery of this PPM nor any offer, allotment or issue of any Participating Shares shall under any circumstances create any implication or constitute a representation that the information given in this PPM is correct as of any time subsequent to the date hereof.

Copies of the current PPM and the Constitution are available for inspection at the registered office of the Fund situated at:

SECURITIES LAWS

UNITED KINGDOM

THE FUND IS AN UNREGULATED COLLECTIVE INVESTMENT SCHEME FOR THE PURPOSES OF THE FINANCIAL SERVICES AND MARKETS ACT 2000 ("FSMA") OF THE UNITED KINGDOM (the "UK"). THE PROMOTION OF THE FUND AND THE DISTRIBUTION OF THIS PPM IN THE UK IS ACCORDINGLY RESTRICTED BY LAW.

THIS PPM IS EXEMPT FROM THE SCHEME PROMOTION RESTRICTION IN SECTION 238 OF FSMA ON THE COMMUNICATIONS OF INDUCEMENTS TO PARTICIPATE IN UNREGULATED SCHEMES ON THE GROUNDS THAT IT IS MADE ONLY TO INVESTMENT PROFESSIONALS, CERTIFIED SOPHISTICATED INVESTORS, SELF CERTIFIED SOPHISTICATED INVESTORS, CERTIFIED HIGH NET WORTH INDIVIDUALS, HIGH NET WORTH COMPANIES AND UNINCORPORATED ASSOCIATIONS AND TRUSTEES OF HIGH VALUE TRUSTS AND ASSOCIATES OF HIGH NET WORTH OR SOPHISTICATED INVESTORS OR TO CATEGORY 1,2,6,7 OR 8 PERSONS AS SET OUT IN THE TABLE IN RULE 4.12.1R(4) OF THE NEW CONDUCT OF BUSINESS SOURCEBOOK IN THE FSA HANDBOOK ("COBS"). ANY PERSON NOT FALLING WITHIN ONE OF THE PROCEEDING

CATEGORIES OR TO WHOM THIS PPM CANNOT OTHERWISE LAWFULLY BE COMMUNICATED UNDER SECTION 238(1) OF FSMA SHOULD NOT RELY UPON IT.

ANY PERSON WHO IS IN ANY DOUBT ABOUT THE INVESTMENT IN THE FUND SHOULD CONSULT A PERSON AUTHORISED UNDER FSMA SPECIALISING IN ADVISING INVESTORS REGARDING THE PARTICIPATION IN UNREGULATED SCHEMES.

For the purposes of this PPM, “investment professionals” means (i) a person authorised under FSMA, (ii) a person who is exempt for the purposes of an exemption order made under Section 38(1) of FSMA in relation to one or more relevant scheme activities and for this purpose relevant scheme activities means the activities specified by article 51 of FSMA (Regulated Activities) Order 2001 (“Regulated Activities Order”) or the activities specified by Articles 14, 21, 25, 37 or 53 of the Regulated Activities Order when carried on in relation to units in collective investment schemes, (iii) any other person whose ordinary activities involve him in participating in unregulated schemes for the purposes of a business carried on by him or who it is reasonable to expect will also participate for the purposes of the business carried on by him, (iv) a government, local authority (whether in the UK or elsewhere or an international organisation, or (v) a person who is a director, officer, or employee of a person falling within (i) – (iv) above when the communication is made to him or her in that capacity and his or her responsibilities involve him or her in that person’s participation in unregulated schemes.

A “certified high net worth individual” means an individual who has signed within the 12 months ending on the date this PPM is communicated to that individual, a statement complying with Part I of the Schedule to FSMA (Promotion of Collective Investments Schemes) (Exemptions) Order 2001 (“Exemption Order”), certifying either, (i) during the financial year (ii) preceding the date of the certificate, the individual had an annual income to the value of £100,000 or more, or (iii) during the financial year preceding the date of the certificate, the individual held net assets to the value of £250,000 or more and net assets for this purpose do not include any property forming the individual’s primary residence or any loan on that property, any rights under a qualifying contract of insurance or any benefits payable on termination of employment or on death or retirement.

A “certified sophisticated investor” means a person who has a current certificate in writing or other legible form signed by an authorised person to the effect that he is sufficiently knowledgeable to understand the risks associated with participating in unregulated schemes and who has signed, within the period of twelve months ending on the date this PPM is communicated to that person, a statement in the terms prescribed by Article 23(1)(b) of the Exemption Order stating that he qualifies as a certified sophisticated investor.

A “self-certified sophisticated investor” means an individual who has signed, within the period of twelve months ending on the date this PPM is communicated to that individual, a statement complying with Part II of the Schedule to the Exemption Order stating that the individual is a self-certified sophisticated investor because at least one of the following applies, namely that; (i) the individual is a member of a network or syndicate of business angels and has been so for at least six months prior to the date of the certificate; (iii) that the individual has made more than one investment in an unlisted company in the two years prior to the date of this certificate; (ii) that the individual is working in, or has worked in the two years prior to the date of the certificate, in a professional capacity in the private equity sector or in the provision of finance for small and medium enterprises, or (iv) that the individual is currently or has been in the two years prior to the date of the certificate, a director of the company with an annual turnover of the least £1million.

A “high net worth company” is a body corporate which has or which is a member of the same group as an undertaking which has a called up share capital or net assets of £500,000 in the case of a body corporate with more than 20 members, or which is a subsidiary undertaking of an undertaking with more than 20 members or in any other case £5million.

A high net worth unincorporated association is any unincorporated association or partnership which has net assets of not less than £5million.

A “high value trust” is any trust the aggregate value of the cash and investments of which amount (before deducting the amount of its liabilities) to £10million or more at any time during the one year preceding the date of this PPM.

An association of high net worth or sophisticated investors is an association, the membership of which comprises whole or predominantly persons who are certified high net worth individuals within the definition set out above, high net worth persons falling within the definitions set out above or certified sophisticated investors falling within the definition set out above.

A Category 1 person means:

- (1) a person who is already a participant in an unregulated collective investment scheme; or
- (2) in relation to the promotion of an unregulated investment scheme, a person who has been, in the last 30 months, a participant in an unregulated collective investment scheme which is:
 - A. that collective investment scheme; or
 - B. any other collective investment scheme whose underlying property and risk profile are both 'substantially similar' (see Note 1) to those of that collective investment scheme; or
 - C. a collective investment scheme which is intended to absorb or take over the assets of that collective investment scheme; or
 - D. a collective investment scheme, units in which are being offered by its operator as an alternative to cash on the liquidation of that collective investment scheme.

A Category 2 person means in relation to the promotion of an unregulated collective investment scheme which is that collective investment scheme a person:

- (a) for whom the firm has taken reasonable steps to ensure that investment in the collective investment scheme is suitable; and
- (b) who is an 'established' or 'newly accepted' client of the firm or of a person in the same group as the firm (see Note 2 & 3).

Category 6 person means an exempt person (other than a person exempted only by section 39 of FSMA (Exemption of appointed representatives)) if the financial promotion relates to a regulated activity in respect of which the person is exempt from the general prohibition in relation to the promotion of an unregulated collective investment scheme which is any collective investment scheme.

Category 7 person means an eligible counterparty or a professional client in relation to the promotion of an unregulated collective investment scheme which is any collective investment scheme in relation to which the client is categorised as a professional client or eligible counterparty (see Note 4).

Category 8 person means in relation to the promotion of an unregulated collective investment scheme which is any collective investment scheme covered by the assessment referred to below.

A person:

- (1) in relation to whom the firm has undertaken an adequate assessment of his expertise, experience and knowledge and that assessment gives reasonable assurance, in light of the nature of the transactions or services envisaged, that the person is capable of making his own investment decisions and understanding the risks involved;
- (2) to whom the firm has given a clear written warning that this will enable the firm to promote unregulated collective investment schemes to the client; and
- (3) who has stated in writing, in a document separate from the contract, that he is aware of the fact the firm can promote certain unregulated collective investment schemes to him

The following Notes explain certain words and phrases used in the definitions above.

Note 1

The property of a collective investment scheme is 'substantially similar' to that of another collective investment scheme if in both cases the objective is to invest in the same one of the following sectors:

(a) on-exchange derivatives or warrants;
(b) on-exchange (or quoted) securities;
(c) the property market (whether in security of property companies or in property itself);
(d) collectable items of a particular description (such as works of art, antique vehicles, etc);
(e) artistic productions (such as films, television, opera, theatre or music);
(f) unlisted investments (including unlisted debt securities).
The risk profile of a scheme will be substantially similar to that of another scheme only if there is such similarity in relation to both liquidity and volatility.

Note 2

A person is an 'established client' of another person if he has been and remains an actual client of that person in relation to designated investment business done with or through that other person.

Note 3

A person is a 'newly accepted' client of a firm if:

(a) a written agreement relating to designated investment business exists between the client and the firm (or, if the client is normally resident outside the UK, an oral or written agreement); and
(b) that agreement has been obtained without any contravention of section 238 or 240 of the Act, or of any rule in COBS applying to the firm or (as far as the firm is reasonably aware) any other authorised person.

Note 4

Firms may use the client categorisation regime that applies to business other than MiFID or equivalent third country business.

The receipt of this PPM by any person not falling with one or more of the preceding categories is unauthorised. This PPM is directed in the UK only at persons falling within the preceding categories and Participating Shares in the Fund are available in the UK only to such persons. No other person should rely on it.

Any recipient of this PPM who is an authorised person may (if and to the extent it is permitted to do so by the FSA rules applicable to it) distribute it or otherwise promote the fund in accordance with section 238 of FSMA but not otherwise. Any recipient of this PPM who is not an authorised person may not distribute it to any other person.

For the purpose of section 85 of FSMA, the offer of Participating Shares constituted by this PPM does not require a prospectus in the UK on the basis that, pursuant to section 86(1)(c) of FSMA, the minimum subscription is an amount no less than an amount equal to the €50,000 threshold required by FSMA and accordingly this PPM does not require the approval by the FSA, as the minimum subscription for the Fund is \$100,000. This is currently equal to more than €50,000. Where however \$100,000 is not equal to, or more than, €50,000, then the minimum subscription will be the greater of the two.

EUROPEAN ECONOMIC AREA

In relation to each member state of the European Economic Area which has implemented the Prospectus Directive 2003/71/EC (each a relevant member state), with effect from and including the date on which the Prospectus Directive 2003/71/EC is implemented in that relevant member state (the relevant implementation date), the participating shares offered pursuant to this PPM will not be offered to the public in that relevant member state prior to the publication of a prospectus in relation to the participating shares which has been approved by the competent authority in that relevant member state or, where appropriate, approved in another relevant member state and notified to the competent authority in that relevant member state, all in accordance with the Prospectus Directive 2003/71/EC.

SOUTH AFRICA

Without derogating from the foregoing notice or any other provisions of this PPM, South African investors must take note of the following -

This PPM is for distribution in South Africa (and shall be distributed and disseminated in South Africa) only to (i) banks (duly registered as such in South Africa), mutual banks (duly registered as such in South Africa) and insurers (duly registered as such in South Africa) acting as principals, or to wholly-owned subsidiaries of such duly registered banks, mutual banks and/or insurers acting as agents in the capacity of authorised portfolio managers for a duly registered pension fund or collective investment scheme managed by the said wholly-owned subsidiary which is duly registered as a management company in terms of applicable South African legislation, and/or (ii) addressees where the total acquisition cost of the participating shares for a single addressee acting as principal is at least R100,000, and/or asset managers and wealth managers regulated by the South Africa Financial Services Board

Please note that in accordance with the requirements of the exchange control department of the South African Reserve Bank ("exchange control"), the following allowances are applicable as at the date of issue of this PPM in respect of foreign portfolio investments by authorised dealers / South African residents / institutional investors (subject to the provisions of the exchange control regulations, 1961 issued under the currency and exchanges act, 1933 ("ECR's") and the Exchange Control Manual issued by the South African Reserve Bank from time to time):

Authorised dealers – authorised dealers defined thereas in terms of the ECR's are permitted to make unlimited foreign portfolio investments.

Private individuals – authorised dealers specifically registered and recognised thereas by Exchange Control may on application by individuals, allow such individuals who are tax-payers in good standing and over the age of 18 years to invest up to a total amount of R2 million outside the common monetary area consisting of Lesotho, Namibia, South Africa and Swaziland ("CMA") on presentation to such authorised dealer of a tax clearance certificate (in respect of foreign investments) issued by the South African Revenue Services. Income earned abroad and own foreign capital introduced into the Republic on or after 1 July 1997 by private individuals resident in South Africa may be transferred abroad, provided the authorised dealer concerned is satisfied that the income and/or capital has previously been converted to rand, by viewing documentary evidence confirming the amounts involved.

Corporates - applications by Corporates to invest overseas are considered in light of the national interest and a longer-term benefit to the economy.

Institutional investors (such as retirement funds, long-term insurers, collective investment scheme management companies and investment managers) – such investors are permitted to transfer funds from South Africa for investment abroad, with an exchange control limit being applied to an institution's total retail assets. The foreign exposure of retail assets may not exceed 15 per cent in the case of retirement funds and long-term insurers and 25 per cent in the case of collective investment scheme management companies and investment managers registered as institutional investors for exchange control purposes.

Notwithstanding the foregoing, the company does not give any warranty or make any representation in regard to the current position under the exchange control laws of the RSA. Accordingly, any South African investor who is in any doubt as to whether the use of South African Rand for the subscription for participating shares is subject to the ECR's, should obtain his/its own advice from an authorised dealer or other professional adviser.

This PPM is furthermore given to you only in relation to an anticipated private offering of participating shares in the company, and not in relation to any offer of participating shares which may or are to be made to members of the public.

South African investors must inform themselves of and ensure compliance with, any applicable exchange control rules and regulations in relation to any investment in the company.

A full prospectus has not been prepared as it is not required under Section 144(b) of the South African Companies Act, 1973 ("S.A Companies Act"). The total acquisition cost of the participating shares in the fund for a single addressee acting as principal will be at least R100 000 and will therefore not be construed as an offer to the public as contemplated in section 144(b) of the S.A Companies Act.

SINGAPORE

This PPM has not been registered as a prospectus with the Monetary Authority of Singapore (the "MAS") under the Securities and Futures Act (the "SFA"). The MAS assumes no responsibility for the contents of this PPM. Accordingly, this PPM and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of participating shares may not be circulated or distributed, nor may participating shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than under circumstances in which such offer, sale or invitation does not constitute an offer or sale, or invitation for subscription or purchase, of Participating Shares to the public in Singapore.

HONG KONG

This PPM has not been registered with the Registrar of Companies in Hong Kong nor has the fund been authorised by the Hong Kong Securities and Futures Commission. Accordingly Participating Shares in the fund are only offered or sold in Hong Kong to persons whose ordinary business it is to buy or sell Participating Shares or Debentures, whether as principal or as agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance of Hong Kong.

INDIA

This PPM has not been and will not be registered as a prospectus with the Registrar of Companies of India and that the Participating Shares will not be offered or sold in India, nor has it circulated or distributed nor will it circulate or distribute this PPM or any other offering document or material relating to the Participating Shares offered herein, directly or indirectly, to the public or any members of the public in India.

GCC STATES

The Mutual Funds and Securities discussed in this PPM are not registered under the Securities Laws of any of the GCC states and the offer or sale of the participating shares may be restricted by law in certain GCC jurisdictions. This PPM does not constitute an offer to sell or the solicitation of an offer to buy any Participating Shares in any GCC jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction or in respect of whom there may be a legal requirement to obtain prior approval of the PPM from the regulatory authorities and/or to appoint a local broker. The company does not represent that this PPM may be lawfully distributed, or that any Participating Shares may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, nor does it assume any responsibility for facilitating any such distribution or offering.

UNITED STATES OF AMERICA

No offer or invitation to subscribe for Participating Shares may be made to the public in the United States of America. The Participating Shares have not been registered under the United States Securities Act of 1933 and are not being offered in the United States of America, nor may they be directly or indirectly offered or sold in the United States of America or in its territories or possessions or areas subject to its jurisdiction or to or for the benefit of nationals, citizens or residents thereof or persons who are normally resident therein (including the estate of such person or corporations or partnerships created or organised therein) except pursuant to an exemption available under the United States Securities Act of 1933. Shareholders should be aware that the company is not a New York fund and that therefore it is not subject to New York law, nor subject to supervision by any New York Supervisory Authority.

At present the company is not offering Participating Shares to employee benefit plans subject to title 1 of the United States Employee Retirement Income Security Act of 1974, as amended ("ERISA Plans"), or retirement plans covering only self employed individuals and individual retirement accounts or otherwise defined as a "Plan" in section 4975 (e)(1) of the United States Internal Revenue Code of 1986 as amended (collectively "Qualified Plans"). If at some point in the future the company accepts subscriptions from ERISA Plans, Qualified Plans, the directors do not intend to permit Participating Shares acquired by ERISA Plans, or Qualified Plans, and other benefit plan investors to equal or exceed 25 per cent of the value of any class of shares of the company. Accordingly each prospective investor will be required to represent and warrant as to whether he is a "Benefit Plan Investor" for purposes of the plan asset regulations under ERISA.

ZIMBABWE

Through an application made by Imara Asset Management Zimbabwe, an institution licensed and regulated by Securities and Exchange Commission of Zimbabwe (SECZ) as an asset management company in terms of the Securities Act (Chapter 24:25) and the Securities (Registration, Licensing and Corporate Governance) Rules, S.I. 100 of 2010 under licence number SECZ3409A, the Dominion Global Fund was approved for distribution in Zimbabwe by both the capital markets regulator, SECZ and the Insurance and Pensions Commission (IPEC). In line with existing exchange control regulations, an approval was also received from the Reserve Bank of Zimbabwe for investment remittances to be made into the Dominion Global Fund. In accordance with the requirements of the exchange control department of the Reserve Bank of Zimbabwe Bank ("exchange control"), the following allowances are applicable as at the date of issue of this PPM in respect of foreign portfolio investments by authorised dealers / institutional investors (subject to the provisions of the exchange control regulations issued by the Reserve Bank of Zimbabwe from time to time).

Through its Reserve Bank Capital Flows Administration, Accounting and Management Division, under reference INV/COBZZWHA/2026/Equity#000217 dated 15 January 2026, the Reserve Bank of Zimbabwe is agreeable to Imara Asset Management Zimbabwe (Pvt) Ltd investing a portion of its clients' Nostro Funds into the Dominion Global Fund (DGF) of Mauritius.

The approval was granted on the following conditions: -

- i. Imara Asset Management Zimbabwe (Pvt) Ltd shall source funds for the investment from own sources and their clients and there shall be no recourse to the interbank market;
- ii. The remittances shall be effected in equal instalments over a period of six (6) months under advice to Reserve Bank Capital Flows Administration, Accounting and Management Division;
- iii. Investment returns earned should be remitted to Zimbabwe through normal banking channels and Reserve Capital Flows Administration, Accounting and Management shall be furnished with documentary evidence showing the receipt of the funds within two (2) weeks of receipt;
- iv. In the event that Imara Asset Management Zimbabwe (Pvt) Ltd or any of the investing

- institutions disinvests, the proceeds realized should be remitted to Zimbabwe through normal banking channels and Reserve Bank Capital Flows Administration, Accounting and Management Division shall be furnished with documentary evidence showing the receipt of the funds within two (2) weeks of receipt; and
- v. Imara Asset Management Zimbabwe shall submit quarterly reports on performance of the offshore investment, showing the amount invested, interest earned/dividends received and the closing balance of the investment by the 7th of the month following the period being reported on.

ADDITIONAL NOTICES

The FSC has issued a Global Business Licence to the Fund to operate as a self-managed collective investment scheme qualifying as an expert fund pursuant to the Securities Act 2005 of Mauritius and the Securities (Collective Investment Schemes and Closed-end Funds) Regulations 2008 of Mauritius. The Fund is regulated by the FSC.

This PPM has been prepared solely for the benefit of potential expert investors interested in a possible investment in the fund and any reproduction or distribution of this PPM in whole or in part, or the divulgence of any of its contents without the prior written consent of the Fund is strictly prohibited.

This PPM does not constitute an offer to sell or a solicitation of an offer to buy the Participating Shares of the Fund described herein from any person other than the fund. No person, other than such person, receiving a copy of this PPM may treat the same as constituting an offer to sell or a solicitation of an offer to buy the participating shares in the fund described herein.

This offering is being made to a limited number of expert investors. The Fund is a suitable investment only for investors for whom an investment in the Fund does not constitute a complete investment program and who fully understand and have the financial resources necessary to assume the risks involved in the Fund's investment program. An investment in the fund is suitable only for investors who are capable of evaluating the merits and risks of such investment and who have sufficient resources to bear any loss, which might result from such investment. If you are in any doubt about the contents of this PPM, you should consult your stockbroker, bank manager, solicitor or other professional adviser.

The Fund reserves the right to withdraw or modify this offering at any time prior to the acceptance of subscriptions from investors.

The information on taxation contained in this PPM is a summary of certain tax considerations but is not intended to be a complete discussion of all tax considerations. The contents of this PPM are not to be construed as investment, legal, or tax advice. Investors should consult their own counsel, accountant, or investment advisor as to:

- (a) the legal requirements within their own countries for the purchase, holding, redemption or other disposal of participating shares;
- (b) any foreign exchange restrictions that they might encounter; and
- (c) the income and other tax consequences that may apply in their own countries relevant to the purchase, holding, redemption or other disposal of participating shares.

This PPM is qualified in its entirety by reference to the constitution of the Fund and the subscription documents relating to the Fund, and any conflict between any statement made herein and any provision of the constitution of the Fund shall be resolved in favour of the latter document.

In making an investment decision, investors must rely on their own examination of the Fund and the terms of the offering as well as the advice from their own representatives, including their own legal advisers and accountants, as to legal, tax and related matters concerning the Fund and an investment therein and including the merits and risks involved. These securities have not been recommended by any federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this PPM. The levels and bases of taxation and any relevant relief from taxation referred to in this PPM can change, any relief referred to are the ones which currently apply and their value depends upon the circumstances of each individual investor.

The Fund is not subject to any investment guidelines of any regulatory body which impose prudential requirements to limit risk.

There can be no assurance that the investment objective of any of the classes will be achieved. The results of investment may vary substantially between the classes.

As is true of any investment, there is a risk that an investment in a class of shares may be lost entirely or in part and an investment in the Fund is only suitable for investors who are aware of and understand the risks involved and are able to withstand the loss of their invested capital. Prospective investors are referred to section 11 for a summary of certain of the risks involved. If you are in any doubt about the suitability of investing in the Fund, you should contact an independent financial adviser.

An investment in the Fund is not intended to be a complete investment programme for any investor and prospective investors should carefully consider whether an investment in any of the classes of shares is suitable for them in light of their own circumstances and financial resources.

The information in this confidential PPM is qualified in its entirety by the agreements and documents referred to herein, by any supplement in relation to any class and by the constitution of the fund, copies of which are available from the administrator upon request.

PROSPECTIVE INVESTORS WHO DO NOT WISH TO PURSUE THIS INVESTMENT ARE ASKED TO RETURN THIS PPM AND ANY ACCOMPANYING DOCUMENTATION AT ONCE TO THE FUND AT THE FOLLOWING ADDRESS:

3. THE FUND

Dominium Global Fund is an entity, incorporated under the laws of Mauritius on 21st July 2017, as a public company limited by shares, regulated and licensed by the FSC as a Global Business Corporation under the Financial Services Act 2007. Its licence is valid for a period of one year and is renewable provided that the Fund complies with the conditions attached thereto. The Fund is authorised by the FSC as a Collective Investment Scheme qualifying as an expert fund under the Securities Act 2005 of Mauritius and the Securities (Collective Investment Schemes and Closed-end Funds) Regulations 2008, issued under the Securities Act 2005 of Mauritius.

Subject to the Constitution, the Fund may create such other classes of shares as and when the Board of Directors deem fit. At the date of this PPM the Directors do not intend to issue a new class of shares for the foreseeable future.

The terms of any future offering of shares of different Classes will be contained and documented by means of a Supplement related to each such offering, or in such other document or manner as the Directors may determine. The approval of the FSC will be sought for each additional Class established by the Fund, and for the relevant documentation in connection therewith.

In the Fund, the principles adopted by the Board relating to the payment of the Redemption Price of Participating Shares, or other distributions, are applied to each Class in isolation, subject to the Fund and the Class satisfying the Solvency Test (as defined in the Act). Payments in respect of redemptions of Participating Shares and other distributions may only be paid out of the assets of the Class in respect of which the relevant Participating Shares were issued. To the extent permissible, assets of a Class of the Fund will only be available to meet liabilities of creditors of the Fund who are creditors in respect of the relevant Class. See "RISK FACTORS" for the Fund.

The assets, liabilities, income, expenditure and taxation attributable to each Class with respect to investments made pursuant to this PPM and future Share offerings will be applied to an account (or book entry) maintained for each Class subject as provided herein and to applicable law. The assets so held in respect of each Class will be applied solely in respect of that Class except to the extent that expenses of the Fund that are not directly attributable to a specific Class shall be allocated among each Class at the discretion of the Directors, provided that this discretion is exercised in a fair and reasonable manner. The Net Asset Value of each Class will be calculated separately and Participating Shares of a particular Class will be redeemed at the Net Asset Value per Share of that Class at the relevant time. For limitations of such a corporate structure as regards the liabilities of the Fund, see "RISK FACTORS" for cross class liability.

The Fund shall be a self-managed scheme i.e. a company managing its own scheme. The Board of the Fund shall be subject to all conditions, duties and liabilities normally applicable to a CIS Manager.

4. **MANAGEMENT AND ADMINISTRATION**

4.1 **The Board of Directors**

The Board's primary function is to direct and supervise the business and affairs of the Fund. The Fund has appointed three directors, two of whom are resident in Mauritius.

The Board shall meet as often as necessary, but shall meet no less than twice a year, to review the operations, administrative affairs and the investments of the Fund.

Below is a brief biographical description of each of the Directors:

Mrs. Housnabee Mohungoo Sham is currently a Relationship Manager at IQEQ Global Business (Mauritius) Ltd (previously known as SGG Global Business (Mauritius) Ltd) ("IQEQ"). She is a member of Association of Chartered Certified Accountants (ACCA) and holds a BSc in Accounting with Finance.

After completing her studies at the University of Mauritius, she joined IQEQ on 14 July 2008 in the Corporate Services Department. She has been involved in the global business sector for more than thirteen years and has been responsible for the setting up and administration of various investment vehicles including Global Business companies, Domestic companies and Collective Investment Schemes. She currently has under her supervision several team members handling a portfolio of clients consisting of high net worth individuals, institutional investors and multinationals.

Mr. Shafiiq-Ur-Rahmaan Soyfoo is a fellow member of the Association of the Chartered Certified Accountants (FCCS) UK, holds a Bachelor of Science in Management with Finance and a Masters of Business Administration (Specialisation: Financial Services from the University of Mauritius). Mr Shafiiq has more than fifteen years of experience in the Global Business Sector and has developed in-depth knowledge of the financial services sector and has been exposed to the main areas of the industry including legal, tax, administration, accounting, anti-money laundering and corporate secretarial fields of financial and non-financial services entities including trusts. He also holds directorship in several companies licensed by the Financial Services Commission. He is currently the Heads of Funds and Assets Managers and has been involved in fund structuring and set-up of funds and global business companies and administration of both open-ended as well as closed-ended funds.

Mr David Eric Stone is currently the Chief Executive Officer of Limpopo Lipadu Game Reserve. He is a competent and widely experienced professional manager with over 20 years of experience at executive management and director level, primarily within the banking and financial sectors in Southern Africa. Strong administrative, financial and inter-personal skills have facilitated a leading role in the expansion of various businesses within the region over the past two decades. He has a sound understanding of Botswana regulatory requirements for listed entities has been developed through regular interaction with Non-bank Financial Institutions Regulatory Authority and the Botswana Stock Exchange, in previous Liaison Officer roles. He is also a founder, licensee, shareholder and director of real estate company in Botswana

4.1.2 **Directors' remuneration**

(a) Each Director is entitled to receive a flat monthly or annual fee for serving in such capacity.

The fee will be in accordance with reasonable and customary directors' fees. The Directors shall be entitled to reimbursement from the Fund for all reasonable out-of-pocket expenses incurred by them on behalf of the Fund.

(b) Any Director may also act in a professional capacity as provided for by law and he or his firm will be entitled to be remunerated for such services.

- (c) None of the Directors has any interest either beneficial or non-beneficial, in the share capital of the Fund.

4.3 Administrator, Registrar and Transfer Agent, and Company Secretary

4.3.1 The Administrator

The Administrator is incorporated in Mauritius and is licensed by the Financial Services Commission as a management company to, inter alia, provide company management services to global business companies. The office address of the Administrator is 33 Edith Cavell Street, Port Louis 11324, Mauritius.

The Fund has entered into an exclusive contract the ("Administration Agreement") with IQ EQ Fund Services (Mauritius) Ltd as Administrator, Registrar and Transfer Agent, and Company Secretary (the "Administrator") to provide administration services to the Fund and on its behalf for each Class of Shares created and that may be created by the Board. The Administrator will perform various administrative and registrar and transfer agency and company secretarial services for the Fund, including:

- (a) As Administrator, calculation of the monthly Net Asset Value of the Participating Shares of each Class of the Fund.
- (b) As Registrar and Transfer Agent, inter alia, in relation to each Class:
 - (i) maintaining the register of Shareholders of the Fund and generally performing all actions related to the issuance and transfer of Participating Shares and the safe-keeping of certificates, if any;
 - (ii) performing all acts related to the redemption and/or purchase of the Participating Shares;
 - (iii) maintaining a record of dividends declared, if any, and dividends paid;
 - (iv) on behalf of the Fund, dealing with and replying to all correspondence and other communications addressed to the Fund in relation to the replacement or transfer of Participating Shares; and
 - (v) performing all other incidental services necessary to its duties, which duties shall be set out in the Administration Agreement or pursuant to any Registrar and Transfer Agent Agreement.
- (c) As Company Secretary, inter alia:
 - (i) providing guidance to the Board relating on its duties, responsibilities and powers;

- (ii) informing the Board of all legislation pertaining to meetings of the shareholders and the Board;
 - (iii) ensuring that the minutes of all meetings of shareholders and directors are properly recorded, and that all statutory registers are properly maintained; and
 - (iv) certifying in the annual financial statements, that the Fund has filed with the Registrar of Companies all such returns as are required under the Act.
- (d) Managing the Fund's tax affairs in Mauritius.

The Administration Agreement provides that the Administrator and its affiliates, employees and directors shall not be liable to the Fund or its Shareholders for any act or omission, in the course of, or in connection with, the services rendered by it under the Administration Agreement or for any loss or damage which the relevant Classes of the Fund may sustain or suffer as a result of, or in the course of, the discharge by the Administrator of its duties pursuant to the Administration Agreement in the absence of gross negligence, wilful default or fraud. The Administration Agreement also contains provisions for the indemnification of the Administrator and its affiliates, employees and directors by the Fund for all liabilities, losses, costs or expenses arising in connection with the performance of its services, other than such losses resulting from the gross negligence, wilful default or fraud on the part of the Administrator and its affiliates, employees and directors.

The Administration Agreement contains limited recourse provisions to the effect that the Administrator agrees that in the event of an award or judgement obtained by it against the Fund, it shall only seek and obtain satisfaction of the award or judgement from the assets of the Class to which the claim was related.

As a result of its other activities, the Administrator may have conflicts of interest in allocating time, services and functions among the Fund and other business ventures. See "POTENTIAL CONFLICTS OF INTEREST." See "FEES AND EXPENSES" herein for a description of the fees payable to the Administrator pursuant to the Administration Agreement.

4.3.2 Indemnification

The Fund's Board, and the Administrator, and their respective officers, directors, employees, agents and representatives will be indemnified by the Fund and be exculpated from liability to the Fund and the Shareholders to the fullest extent permissible by law for any actions taken in good faith, provided that the losses to be indemnified or the liability to be exculpated was not the result of gross negligence, wilful misconduct or fraud.

4.4 Prime Brokerage and Custody

The Fund is authorised to appoint custodians, brokers, banks, clearing associates, depositories, future commission merchants, introducing brokers, counterparties and other financial institutions (collectively, the "Prime Broker and Custodian") from time to time, which will be appointed on such terms and conditions as may be agreed upon.

The Fund is not obligated to maintain its relationship with the Prime Broker and Custodian for any minimum period of time and may discontinue such relationship and engage a new or additional prime broker(s) and custodians without further notice to the Shareholders.

4.5 Conflict of Interest

The services of the Administrator, and the Directors are not exclusive and each such person is free to render similar services to other persons so long as the services to be performed by it are not impaired thereby and to retain for its own use and benefit all fees or moneys payable thereby. Should a conflict of interest arise in relation to the Fund, the Directors will endeavour to ensure that it is resolved fairly.

5. STATED CAPITAL AND INITIAL OFFERING

5.1 The Fund's Stated Capital

The Fund has issued 100 Founder shares of US \$1.00 par value each, and intends to issue, over a period of time, an unspecified number of non-voting, redeemable Participating Shares of US \$0.01 par value each in each Class of Shares that it will create. The Founder shares of the Fund shall be owned by Mr David Eric Stone and, save as provided for in the Constitution of the Fund or in the Act are the only Shares of the Fund with voting rights.

The Fund will issue Participating Shares to that investor in that Class on terms determined upon their issuance without the consent of or notice to the Shareholders. The exception to this is where the rights attached to any existing Class of Shares will be varied by the issue of such other Class or classes of Participating Shares ranking in priority thereto, in which event the consent of the holders of Participating Shares of other Classes will be sought in accordance with the Law. In addition, the Fund may, insofar as it is permitted by applicable law, redeem or purchase any of the Participating Shares. The net proceeds from the sale of Participating Shares will be invested by the Fund as described herein or in the relevant Supplement. The Fund will pay the expenses of offering the Participating Shares. See "FEES AND EXPENSES".

5.1.1 Initial Offering

The initial target subscription amount is US \$5 million.

The minimum initial investment for each Subscriber, in any Class, shall be US\$100,000 or its equivalent in any other foreign currency.

Existing Shareholders may make additional investments. The minimum additional investment shall be US \$5,000.00. However, the Board may in its sole discretion accept an additional investment of a lesser amount.

If subscription fees are payable they will be set out in the relevant Supplement/ Subscription Agreement.

5.1.2 Procedure for Applications

Applications for Participating Shares will be accepted during the Initial Offer Period. After the Initial Offer Period has expired in respect of the relevant Class Shares, Participating Shares may be subscribed for at the prevailing NAV per Share on each Dealing Day and subject to the terms contained in this PPM and the Subscription Agreement.

Upon acceptance by the Fund of the application during the Initial Offer Period, the Subscriber shall be allotted such number of fully paid up Class Shares that shall be equal to the Subscriber's Investment net of all bank charges divided by the initial offer price per Participating Share.

In the event of applications for Participating Shares after the Initial Offer Period, the

Subscriber shall be allotted such number of fully paid up Class Shares that shall be equal to the Subscriber's Investment net of all bank charges divided by the relevant Net Asset Value per Share.

Application for Participating Shares should be made by completing and signing the Subscription Agreement enclosed with this PPM and emailing or couriering the same to the Administrator at the address listed in the Directory, at least 3 Business Days prior to the relevant Dealing Day. In addition, the application should be sent by facsimile, by completing and signing the Subscription Agreement and returning the same to the Administrator at the fax number set out in the Directory, also no later than 3 Business Days prior to the relevant Dealing Day, stating:

- (i) the number and Class of Shares applied for and the amount to be invested;
- (ii) how payment has been made or is being made for the amount due if the application is accepted;
- (iii) acknowledgement of receipt of the PPM and relevant Subscription Agreement/Supplement and confirmation that the application is being made on the terms thereof and subject to the Constitution of the Fund; and
- (iv) the name and address in which the Participating Shares are to be registered.

Additional subscriptions for Participating Shares may be made by completing and signing the Additional Subscription Form enclosed with this Supplement and emailing or couriering the same to the Administrator at the address listed in the PPM, at least 3 Business Days prior to the relevant Dealing Day.

Payment for Participating Shares must be effected by wire transfer only to the bank account detailed in the relevant Subscription Agreement/Supplement.

The Fund has the right to accept or reject (in whole or part) any application for Participating Shares. In case the application is rejected, the applicant will be informed, without any reason being ascribed and any application monies received by the Administrator will be returned without payment of interest, by wire transfer to the applicant's bank account, at the applicant's risk and expense. Applicants should be aware of the risks associated with sending faxed applications and that the Administrator accepts no responsibility for any loss caused due to the non-receipt of any fax.

Unless otherwise agreed to in writing, applications for the issuance of Participating Shares on a particular Dealing Day must be received no later than 3 Business Days prior to the relevant Dealing Day. Duly completed applications received and accepted by the Fund are irrevocable. The number of Participating Shares to be allotted in respect of each application will be determined by dividing the sum remitted by the prevailing Net Asset Value.

Shares will be held in inscribed form and a confirmation will be sent to the Applicant upon receipt of cleared funds, the properly completed Subscription Agreement and acceptance of such funds by the Fund. Applications received less than 3 Business Days prior to a Dealing Day will be held in an account and treated as an application for the next Dealing Day. Payment may also be made in cash equivalents and securities, subject to the approval of the Directors.

Applicants subscribing for a Class of Shares are advised that the Participating Shares are issued subject to the provisions of the Fund's Constitution, this PPM and the Supplement in relation to the relevant Class.

As part of the Fund's and the Administrator's responsibility for the prevention of money laundering, they require a detailed verification of the applicant's identity and the source of payment for the Shares.

The Fund reserves the right to request such information as it considers necessary to verify the identity of the applicant. In the event of delay or failure by the applicant to produce any information required for verification purposes, the Fund may refuse to accept the application and all subscription monies relating thereto or may refuse to process a redemption request until proper information has been provided.

5.1.3 Eligible Investors

Each Subscriber must represent and warrant to the Company that, among other things, he is a Qualified Holder and is able to acquire Participating Shares without violating applicable laws. The Fund will not knowingly offer or sell Participating Shares to any investor to whom such offer or sale would be unlawful, or to any investor who, by investing in the Fund, would commit a breach of the laws and regulations relating to the prevention of money laundering or financial crime in his jurisdiction, or in Mauritius.

5.2 Form of Participating Shares

Participating Shares will be issued in inscribed form "Inscribed Shares". Entry in the Register of Members is prima facie evidence of title to Shares.

5.3 Rights Attaching to the Shares

5.3.1 Founder Shares

The Founder Shares shall have the following rights:

- (a) Voting rights in any Shareholders' Meeting;
- (b) No dividends shall be payable on the Founder Shares, nor are the Founder Shares redeemable; and
- (c) In a winding up the entitlement only to receive an amount equal to its par value in accordance with Article 48 of the Constitution. In the event that there are insufficient assets to enable such payment in full to the holder of the Founder Shares, no recourse shall be had to any other assets of the Fund.

5.3.2 Participating Shares

The Participating Shares shall have the following rights:

- (a) No voting rights except in case of a modification or variation of rights of that Class, and no right to receive a notice of a Shareholders' Meeting;
- (b) In a winding up the rights set out in Article 48 of the Constitution; and
- (c) Be redeemable at the option of the Shareholder or the Fund.

The rights, privileges and liabilities of a holder of Participating Shares shall be in relation to its Class, and to no other Class.

5.3.3 Procedure for Redemptions

Participating Shares shall be redeemed in accordance with the Law, the Constitution and in accordance with the procedures set out in this PPM, unless otherwise specified in the relevant Subscription Agreement/Supplement for each Class.

Only fully paid up Participating Shares may be redeemed.

At the conclusion of any Initial Offer Period (subject to any lock-in period as set out in the relevant Subscription Agreement/Supplement), Participating Shares in such Class shall be redeemable at the option of the holder or the Fund on the terms provided in the PPM or as specified in the relevant Subscription Agreement/Supplement for each Class.

Except as provided herein or in any Subscription Agreement/Supplement, a Shareholder may request redemption of all or some of its Participating Shares as of each Dealing Day. Shareholders wishing to redeem Participating Shares as of a particular Dealing Day must, where the redemption amount exceeds USD 10,000, provide the Administrator with a written notice of at least 15 Business Days prior to the intended Dealing Day, stating their intention to redeem, and the number and Class of Shares to be redeemed as of that Dealing Day. A redemption request, once made, will be irrevocable and may not be withdrawn without the consent of the Board.

The Redemption Price is equal to the relevant Net Asset Value per Share on the corresponding Dealing Day. Unless redemptions have been suspended or delayed, each redeeming Shareholder will be paid on Settlement Day or on availability of redemption proceeds, if later. If redemption fees in respect of any Class are payable they will be set out in the relevant Subscription Agreement/Supplement.

In circumstances where the Fund is unable to liquidate securities' positions in an orderly manner in order to fund redemptions, or where the value of the assets and liabilities of the Fund cannot reasonably be determined, the Fund may take longer than the time periods mentioned above to effect settlements of redemptions, may effectuate only a portion of a requested redemption or may even suspend redemptions. In the discretion of the Directors, the Fund may settle redemptions in kind and may extend the duration of the redemption notice period if the Directors deem such an extension as being in the best interest of the Fund and the non-redeeming Shareholders.

The Fund may withhold a portion of any proceeds of redemption if necessary to comply with applicable legal or regulatory requirements. Moreover, the Directors have the right to require a compulsory redemption of some or all of the Participating Shares of any Class held by a Shareholder at the price per Participating Share equal to the then prevailing Net Asset Value per Share of the relevant Class in accordance with the Constitution. The Directors may compulsorily redeem a Shareholder's Participating Shares if such Shareholder either no longer qualifies as a Qualified Holder or if such Shareholder has requested a partial redemption which would cause the aggregate holding owned by such Shareholder following such redemption to decline below the minimum holding as was applicable to such Shareholder (if any) or below the minimum holding applicable to that Class (if any). Compulsory redemptions will be made at the Net Asset Value per Share of the relevant Class as of the last Business Day of the month in which such notice of redemption is issued or within 48 hours of such notice issued to the Shareholder, at the discretion of the Directors.

The Administrator will redeem the Participating Shares at the Net Asset Value per Share of the relevant Class on the Dealing Day less any applicable accrued Performance Fees and other charges and expenses referred to in the PPM or the relevant Subscription Agreement/Supplement. Redemption requests may initially be sent by fax to the

Administrator, however, Shareholders should be aware of the risks associated with sending documentation in this manner and that the Administrator will not be responsible in the event of non-receipt of any redemption request sent by fax. The original redemption request must be sent to the Administrator. Redemption payments will be made in U.S. Dollars unless made in kind, and will be remitted by wire transfer to the bank account from which the subscription price was paid. A request for redemption received less than 15 Business Days prior to a Dealing Day, where the redemption amount exceeds USD 10,000, will be treated as a request for redemption as of the next Dealing Day, or otherwise in the discretion of the Directors.

The Fund may elect to purchase or to procure the purchase of Participating Shares offered for redemption at a price equal to their Net Asset Value rather than the Fund compulsorily redeeming them, should the Directors unanimously deem it in the best interest of the Fund.

At the time of each redemption of any Participating Shares, the Company as a whole would have to meet the Solvency Test. In the event that the Company does not meet the Solvency Test, then redemption of Participating Shares of a particular Class would not be possible. The Company will satisfy the Solvency Test under the Act where the Company is able to pay its debts as they become due in the normal course of business and the value of its assets is greater than the value of its liabilities.

5.4 Temporary Suspension of Dealings and Valuation

The Fund's Constitution provides that the Directors, acting unanimously, may declare a temporary suspension of the determination of the Net Asset Value of a Class or Classes and the sale, allotment, issue or redemption of the Participating Shares in the events set out under Article 19 of the Constitution.

5.5 Determination of Net Asset Value

Under the overall supervision and direction of the Directors, the Administrator will calculate the Fund's Net Asset Value, the Net Asset Value of each Class and the Net Asset Value per Share of each Class, in each case, as of each Valuation Date. The Net Asset Value of each Class shall be the value of all the assets less all the liabilities attributable to that Class.

The assets of each Class shall be valued as follows:

- (a) securities traded on a stock exchange or other regulated market are to be valued generally at the last known traded price or last traded price quoted on the relevant exchange or market on or before the day preceding the relevant Dealing Day;
- (b) unlisted equity securities will be valued initially at cost and thereafter with any reduction or increase in value (as the case may be) as the Directors shall in their absolute discretion deem appropriate in the light of the circumstances;
- (c) unlisted securities (other than equities) for which there is an ascertainable market value are to be valued generally at the last known transacted price or last transacted price dealt on the market on which the securities are traded on or before the day preceding the relevant Dealing Day;
- (d) unlisted securities (other than equities) for which there is no ascertainable market value will be valued at cost plus interest (if any) accrued from purchase to (but excluding) the relevant Dealing Day plus or minus the premium or discount (if any) from par value written off over the life of the security;
- (e) any value otherwise than in US dollars shall be converted into US dollars at the market rate (whether official or otherwise) which the Directors shall in their absolute discretion deem appropriate to the circumstances having regard inter alia to any premium or discount which they consider may be relevant and to the costs of exchange;
- (f) the value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest accrued and not yet received shall be deemed to be the full amount thereof, unless it is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such deduction or discount as the Directors may consider appropriate to reflect the true value thereof;

- (g) the value of units or other security in any unit trust, mutual fund, investment corporation, or other similar investment vehicle or collective investment scheme shall be derived from the last prices published by the managers thereof on or before the day preceding the relevant Dealing Day;
- (h) notwithstanding the foregoing, the Directors may permit some other method of valuation to be used if they consider that such valuation better reflects the fair value; and
- (i) for the purpose of valuing the assets of the Class as aforesaid the Directors may with due care and in good faith rely upon the opinions of any persons who appear to them to be competent to value assets of any class or classes by reason of any appropriate professional qualification or of experience of any relevant market.

Notwithstanding the foregoing, where at the time of any valuation any asset of the relevant Class has been realised or contracted to be realised there shall be included in the assets of the Class in place of such asset the net amount receivable by the Class in respect hereof provided that if such amount receivable is not payable until some future time after the time of any valuation the Directors may make such allowance as they consider appropriate.

The liabilities of the Class shall be deemed to include all its liabilities, including all fees that may be payable to the Fund's service providers, and such provisions and allowances for contingencies (including tax) payable by the Class but not liabilities represented by Participating Shares of another Class of the Company. In determining the amount of such liabilities the Directors may calculate any liabilities of a regular or recurring nature on an estimated figure for yearly or other periods in advance and accrue the same in equal proportions over any such period.

The Net Asset Value per Share in a Class shall be calculated by dividing the Net Asset Value of the Class by the number of Participating Shares in issue in that Class and adjusting the resultant amount downwards to the nearest cent.

Any calculations made pursuant to these provisions shall be made by or on behalf of the Directors and shall (except in the case of manifest error) be binding on all persons.

None of the Directors, the Fund or the Administrator shall be liable for any loss or damage caused to any person, where any price or valuation, used in good faith in connection with the above procedure and methodology of valuation, proves to be an incorrect or an inaccurate estimate or inaccurate determination of the price or value of any part of the property of the Fund.

5.6 Registration and Transfer of Shares

Shares are issued in inscribed form and the Fund shall not issue bearer shares. The Administrator will maintain a current Register of Members, containing amongst others the names and addresses of the Shareholders of each Class for the previous seven (7) years, and the Registrar and Administrator's entry in the share register is prima facie evidence of ownership of such Shares. Certificates representing Shares will only be issued upon written request by the Shareholder to the Administrator.

Transfers of Shares must be made by instruments in writing in the usual form and are permitted only in exceptional circumstances and with the prior written consent of the Directors, which consent may be withheld in the absolute discretion of the Directors

without the need for assigning any reason. Any transferee of Shares is required to furnish the same information and complete the same documents that would be required in connection with a direct subscription including, without limitation, being required to complete a Subscription Agreement, in order for a transfer application to be considered by the Directors. In case of violation of applicable ownership and transfer restrictions, the Directors may decline to recognise and register any transfer of Shares.

6. INVESTMENT POLICY

6.1 Investment Objective and Strategy

The Fund will invest in accordance with the general investment policy described herein.

Objective

The Fund's initial class of shares will act as a feeder into VT Dominion Holdings ICVC ("DH"). In this regard the Fund will hold the bulk of its assets in DH together with cash and money market instruments. The Fund will not hold derivative instruments, commodities or immovable properties. DH will invest primarily in enterprises that are listed on a recognised stock exchange. DH will not borrow to invest, nor will it invest in derivatives, commodities or immovable properties. DH may invest up to 15% of its NAV in money market instruments, such as bank deposits, government and public securities and money market instruments.

Strategy

The Fund's initial class of shares aims to offer investors a vehicle to own DH.

DH is managed by Valu-Trac Investment Management Limited with its address at Mains of Orton, Orton, Fochabers, Moray, Scotland. IV32 7QE. Valu-Trac is regulated by the UK FCA with reference number 145168.

In the opinion of the investment manager of DH, business ownership offers the best means to protect and grow capital in real terms over time. It provides investors with a claim on the true sources of wealth creation. Patient long-term ownership of a limited number of carefully selected businesses, each providing products and services that satisfy society's needs, is the core to the investment approach. There is no defined time horizon for investment, and the intention would be to own such businesses for decades. Simply put, the goal of the investment manager of DH is to buy well and hold on.

DH seeks to partner with competent and honest entrepreneurs or business owners who share the same community of interest. These individuals will have the privilege and burden of overseeing the distribution or reinvestment of company cash flows, a key determinant of the rate at which investor's capital will compound over time. In order that this wealth creation accrues to investors as owners, and is not competed away, each of the selected businesses should have barriers to entry that are scarce and difficult to replicate. They should also operate with capital structures and business models resilient enough to endure life's inevitable vicissitudes.

The Investment Manager believes neither 'risk' nor 'value' is a number that can be found on a spreadsheet. Given the sanctity of capital 'risk' is better defined as the likelihood of a permanent capital loss. The careful selection of each business is the best protection against this outcome although errors of judgement can still be made. As long-term business owners asset price volatility, or illiquidity, should not be defined as risk. Despite its conservative approach, DH will not avoid large drops in the share prices of the companies it owns. Understanding the businesses and management partners should provide the resilience to survive these falls and the courage to take advantage of them.

The investment manager of DH ‘values’ scarcity, resilience, adaptability, ingenuity, probity and competence. DH will look to own as much of these attributes as possible for every portion of a business DH acquires. Share price volatility may provide the opportunity to acquire a greater portion of this value relative to the price that investors are being asked to pay – a welcome outcome. Cash represents the residual of the investment process. Suitable investment opportunities do not arise each and every day. When suitable investment candidates are not available cash will be allowed to accumulate, to a maximum of 15% of net asset value. The investment manager of DH has no ability to time markets and so will not attempt to do so.

It should be understood that making comparisons of investment performance with other assets over short periods of time is not helpful. Furthermore, the portfolio is constructed without consideration for benchmark weightings and as such performance may deviate substantially from others. A reasonable long-term comparator for global business ownership is the MSCI World Index.

The Fund will hold a minimum of 75% its assets in DH with the remainder of the Fund invested in money market instruments.

DH is a UK regulated Open Ended Investment Company, categorised as a Non-UCITS retail scheme (NURS). The Company will invest in enterprises that are listed on recognised global stock exchanges.

Investors are advised that they should consult their independent financial adviser, lawyer, accountant or other professional adviser/s before investing in the Fund.

There can be no assurance that the Fund will achieve its investment objective. The Fund’s investment policies and strategies are speculative and entail significant risk. See “RISK FACTORS”.

The foregoing description is general, is not intended to be exhaustive and is subject to and should be read in conjunction with any additional description in the relevant Supplement. Investors must recognize that there are inherent limitations on all descriptions of investment processes due to the complexity, confidentiality and subjectivity of such processes. In addition, the description of virtually every strategy must be qualified by the fact that investment approaches are continually changing, as are the markets invested in by DH and consequently the Fund.

6.2 Borrowing of Cash and Securities and Certain Loans

The Fund is authorised to borrow to fund redemption requests. Loans generally may be obtained from banks or from other financial institutions; such loans (which will relate to a particular Class) will be secured by securities or other capital of that Class which will be pledged to such banks or financial institutions. Such leverage shall not exceed 20% of that particular Class unless the Board unanimously resolves otherwise.

6.3 Plan of Distribution and Use of Proceeds; Cash Equivalents

The net proceeds of the offering contemplated in this PPM will be invested in accordance with the policies set forth under “INVESTMENT POLICY”. The Fund, without limitation, may hold cash or invest in cash equivalents for short-term investments.

7. DISTRIBUTIONS

It is the intention of the Board not to make distribution of net income by way of dividends in the normal course. Net income will, therefore, effectively be reflected in Net Asset Value. However, the Directors may declare and pay dividends with respect to any Participating Share or Class of Shares if in their absolute discretion they deem fit, provided there are profits available for distribution. Any dividends, repayments or other money payable in cash in respect of the Participating Shares may be paid by telegraphic transfer to a bank account designated by the Subscriber in writing.

8. TAXATION, EXCHANGE CONTROL AND ANTI-MONEY LAUNDERING

8.1 Taxation

The taxation of income and capital gains of the Fund and of Shareholders is subject to the fiscal laws and practices of Mauritius, countries where investments are envisaged by the Fund and of the jurisdiction in which Shareholders are resident or otherwise subject to tax. The provisions under any applicable double taxation treaty may also be relevant.

The following summary of certain relevant tax provisions is based on current law and practice and does not constitute legal or tax advice. The relevant tax provisions are subject to change.

Prospective investors should consult their own professional advisers on the relevant taxation considerations applicable to acquisition, holding and disposal of Participating Shares and the receipt of distributions. The Fund, its Directors, Administrator, and their advisers accept no responsibility for any loss suffered by any investor as a result of current, or changes in, taxation law and practice.

Mauritius

The Fund

The Fund holds a Global Business Licence for the purpose of the Mauritius Financial Services Act and as a tax resident is governed by the Mauritius Income Tax Act 1995 ("Mauritian Income Tax Act"). The Fund is liable to tax in Mauritius at the applicable tax rate on its net chargeable income. However, the Fund will be entitled to a foreign tax credit on its foreign source income or a partial exemption. The Fund may not simultaneously claim foreign tax credit and partial exemption on the same income stream.

Further, the Fund will be exempted from income tax in Mauritius on profits or gains arising from sale of securities. In addition, there is no withholding tax payable in Mauritius in respect of payments of dividends to holders of shares or in respect of redemptions or exchanges of shares.

The Fund has applied for and has obtained a tax residence certificate from the Mauritian Revenue Authority in respect of the India-Mauritius Tax Treaty, and the certificate will be renewable annually. Renewal of the certificate is subject to the prescribed requirement that the Board of Directors provide an undertaking to the tax authorities to demonstrate that the Fund is centrally managed and controlled in Mauritius.

Under the current laws and regulations of Mauritius, the determination of residence for the purpose of deriving benefits under the India-Mauritius Tax Treaty, as interpreted by the Mauritian authorities, is based on the concept of management and control and is a matter of fact, based on the circumstances prevailing in the year of assessment. The FSC and the Director-General of the Mauritius Revenue Authority ("MRA") require that for the Fund to be a Mauritian resident, its central management and control must be in Mauritius, which requires the fulfillment of certain conditions to obtain the Tax Residency Certificate ("TRC"). In determining whether the conduct of business of the Fund will be managed and controlled

from Mauritius, the FSC, in accordance with Section 71(3)(b) of the Mauritius Financial Services Act, shall have regard to such matters as it may deem relevant in the circumstances. Without limitation, the FSC may have regard to whether:

- (a) the Fund has at least two directors resident in Mauritius who are of sufficient caliber to exercise independence of mind and judgement;
- (b) the Fund maintains at all times its principal bank account in Mauritius;
- (c) the Fund keeps and maintains, at all times, its accounting records at its registered office in Mauritius;
- (d) the Fund prepares its statutory financial statements and causes such financial statements to be audited in Mauritius; and
- (e) the meetings of the Directors shall include at least two Directors resident in Mauritius.

There can, however, be no assurance that the India-Mauritius Tax Treaty will continue to be in full force and effect during the existence of the Fund or that the Fund will continue to enjoy the benefit of the tax treaties.

Historically, under the India-Mauritius Tax Treaty, the taxation of capital gains resided in Mauritius. The India-Mauritius Tax Treaty was amended by a protocol in 2016 (the “2016 Protocol”), under which the taxing rights on capital gains were shifted from Mauritius to India. Since April 2019, India has full taxing rights on capital gains. The India-Mauritius Tax Treaty has been recently amended to introduce a new protocol (the “2024 Protocol”) to be compliant with the Organisation for Economic Cooperation and Development (“OECD”). The 2024 Protocol introduced the concept of a “Principal Purpose Test” in the India-Mauritius Tax Treaty. The 2024 Protocol was signed in March 2024 and is yet to be ratified.

The Fund is required to carry out its core income generating activities in Mauritius as required under the Mauritian Income Tax Act, in the event the Fund opts for a partial exemption.

As from January 2019, the deemed foreign tax credit regime available to global business companies has been replaced by the introduction of an 80% exemption regime, which is available to all companies in Mauritius except banks, on specified income sources including but not limited to (i) foreign dividend, subject to amount not allowed as deduction in source country, (ii) interest income, (iii) profit attributable to a permanent establishment of a resident company in a foreign country, (iv) income derived by a collective investment scheme (“CIS”), closed end funds, CIS manager, CIS administrator, investment adviser or asset manager licensed or approved by the FSC, and (v) income derived by companies engaged in ship and aircraft leasing, subject to meeting prescribed substance conditions. No actual foreign tax credit will be allowed on foreign source income if the global business licence company has claimed the partial exemption. As a CIS licensed by the FSC, the Fund is eligible to benefit from the partial exemption regime provided under the Mauritian Income Tax Act. In accordance with Item 41 of Sub-Part C, Part II of the Second Schedule to the Mauritian Income Tax Act, a CIS deriving income from specified sources is entitled to an 80% exemption on such income, other than interest income. Where the Fund receives interest income, the applicable exemption is increased to 95% pursuant to Item 7 of Sub-Part C, Part II of the Second Schedule.

To avail of this exemption, the Fund must satisfy the conditions set out in Regulation 23D(2) of the Mauritius Income Tax Regulations 1996. These include the requirement for the Fund to (i) carry out its core income generating activities (“CIGA”) in or from Mauritius; (ii) employ, directly or indirectly, an adequate number of suitably qualified persons to conduct its CIGA; and (iii) incur a minimum level of expenditure that is proportionate to its level of activities.

For the purposes of the 80% exemption, CIGA for a CIS is defined under the Mauritian Income Tax Act to include investment of funds in portfolios of securities, or other financial assets, real property or non-financial assets; diversification of risks; redemption on the request of the holder.

For the purposes of the 95% exemption on interest income, CIGA is interpreted to include activities such as agreeing funding terms, setting the duration and conditions of financing, managing related risks, and monitoring or revising financing arrangements. If Mauritian tax laws were to change, such changes could reduce or increase the tax advantages to investors in the Fund as well as decrease or increase the tax burden of the Fund.

Corporate Climate Responsibility ("CCR") Levy. Amongst the key measures implemented is the introduction of a CCR levy to finance climate change mitigation initiatives. The CCR levy of 2% will apply on the chargeable income of any company (including société) having a turnover exceeding Mauritian Rupee 50 million as from year of assessment commencing July 1, 2024.

The definition of "income tax" has been amended to include the CCR levy. The Fund may therefore offset its CCR levy payable against its foreign tax credit.

For the purposes of assessing the relevance of the CCR levy to a taxpayer, the term "turnover" has been defined as gross income, including exempt income derived from all sources. Consequently, even exempt income such as profits or gains on the disposal of securities will be relevant in determining whether the turnover threshold is met.

The CCR levy will apply to companies with an accounting year ending on or after January 1, 2024 as from July 1, 2024.

Shareholders

Shareholders will not be subject to any form of Mauritian tax on redemption of Participating Shares and payment of dividend by the Fund.

United Kingdom

The comments set out below summarise certain aspects of the UK taxation treatment of investing in, holding, exchanging or disposing of the Participating Shares. They are based on existing law and on what is understood to be current HM Revenue & Customs practice. Where reference is made to individual Shareholders they are intended as a general guide only and apply to such Shareholders who are resident or ordinarily resident and domiciled for taxation purposes in the UK (save where express reference is made otherwise) and who hold the Participating Shares as an investment and who are the absolute beneficial owners thereof. However it should be noted that there are proposed changes to UK residency and domicile rules which may be enacted in the Finance Act 2008.

Prospective Shareholders should consult their own professional advisers on the implications of investing in, holding, exchanging or disposing of the Participating Shares under the laws of the jurisdictions in which they are or may be liable to taxation.

Taxation of the Company

The Directors intend that the Company should conduct its affairs so that it will not be deemed to be resident in the UK for taxation purposes and will not carry on a trade in the UK (whether or not through a permanent establishment in the UK). On this basis, the Company should not be within the charge to UK income tax or corporation tax in respect of its income or capital gains. Income received by the Company arising from UK sources may however be subject to UK withholding tax.

Taxation of Dividends

Individuals

An individual Shareholder who is resident, ordinarily resident and domiciled in the UK will generally be subject to income tax on dividends and other income distributions of the Company. No such liability should arise for individual Shareholders who, though UK resident, are not domiciled in the UK, except to the extent that amounts are remitted to the UK (or treated for UK taxation purposes as remitted to the UK).

Companies

A corporate Shareholder who is resident in the UK will generally be subject to corporation tax (under Schedule D Case V) on dividends and other income distributions of the Company.

Taxation on a Disposal of the Shares

It is not intended that the Company will be a qualifying offshore fund for UK tax purposes. Therefore the disposal of Participation Shares should give rise to a charge at that time to income tax for individual Shareholders or corporation tax for UK resident corporate Shareholders under Schedule D Case VI, on the amount of consideration which represents an offshore income gain. A charge to income tax in respect of offshore income gains which arises on any individual Shareholder who is resident or ordinarily resident but not domiciled in the UK at the time of disposal will be on a remittance basis.

Any Shareholder who (either alone or together with connected persons) owns more than 10 per cent of the Participating Shares may be liable to UK taxation on any offshore income gains accruing to the Company and should seek specialist advice.

Taxation of Personal Pensions investing in the Company

Assuming that the pension (including pensions referred to as Self Invested Personal Pensions or "SIPPs") is a 'registered pension scheme' for the purposes of the relevant UK legislation, the normal rule in relation to income tax is that income derived from investments or deposits held for the purposes of a registered pension scheme is exempt from income tax. Similarly, a gain arising from the disposal of investments held for the purposes of a registered pension scheme is exempt from capital gains tax. **These normal rules are subject to exceptions and therefore persons wishing to acquire Participation Shares to be held in a personal pension should seek appropriate specialist advice to determine whether the exceptions will apply and whether the Participation Shares would represent permitted investments.**

Where a pension is not a registered pension scheme for the purposes of the relevant UK legislation, the tax treatment may be different from that described above. In such a case, appropriate specialist advice should be sought.

Stamp Duty and Stamp Duty Reserve Tax

Neither UK stamp duty nor stamp duty reserve tax ("**SDRT**") will arise on the issue of the Participating Shares. So long as any instrument of transfer transferring the Participating Shares is not executed in the UK no stamp duty should arise on such a transfer. So long as the Participating Shares are not to be registered in any register kept in the UK by or on behalf of the Company, a transfer or agreement to transfer the Participating Shares will not attract any liability to SDRT.

Inheritance Tax

No liability to inheritance tax should generally arise in respect of Participating Shares held by a person who is not domiciled and are not deemed to be domiciled in the UK subject to any changes to UK domicile rules. **UK domiciliaries should seek their own advice as to inheritance tax.**

Transfer of Assets Abroad

The attention of individual Shareholders who are ordinarily resident in the UK is drawn to provisions relating to transfer of assets abroad under sections 720, 727 and 731 of the Income Tax Act 2007. These provisions are aimed at preventing the avoidance of income tax by individuals through transactions resulting in the transfer of assets or income to persons (including companies) resident or domiciled abroad and may render such individuals liable to taxation in respect of undistributed income and profits of the company involved on an annual basis. If income and profits are accumulated by the Company and these provisions were to apply, there could be a liability for individual Shareholders who are ordinarily resident in the UK. **Shareholders are therefore advised to take advice as appropriate relating to these issues.**

South Africa

The comments set out below summarise certain aspects of the South African tax treatment of investing in, holding, exchanging or disposing of the Participating Shares. They are based on existing law and what is understood to be the current practice of the South African Revenue Service. They are intended as a general guide only and apply to Shareholders resident for tax purposes in South Africa, who hold the Participating Shares as an investment (i.e. not as trading stock) and who are the absolute beneficial owners thereof. Prospective Shareholders should consult their own professional advisers on the implications of investing in, holding, exchanging or disposing of the Participating Shares.

The Company does not give any warranty or make any representation in regard to the current position under the taxation laws of the RSA. Accordingly, any investor who is in any doubt as to his/its liability for income tax, capital gains tax, the deductibility of interest paid on borrowings incurred to finance an acquisition of Participating Shares, or resident status for tax purposes, should consult his/its own professional advisers.

In this section headed "South African Taxation", "tax"/"taxes" means any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by, or on behalf of the RSA, or whether in terms of the Income Tax Act, 1962 as amended or in terms of any other legislation or regulation.

Taxation of the Company

The Directors intend that the Company shall conduct its affairs so that it will not be resident in South Africa for tax purposes, nor derive any income from a South African source. On this basis the Company will not be liable to South African tax in respect of its income or capital gains.

Taxation of Dividends

A Shareholder who is a resident of South Africa will be subject to tax on dividends and other income distributions of the Company. In the event that any single South African resident Shareholder (and in the case of a company, together with any other company in the same group of companies (as defined)) holds at least 20 per cent of the Participating Shares and voting rights in the Company, the dividend will be exempt from tax. Certain investors who are generally exempt from tax, for example, registered pension and provident funds, qualifying public benefit organisations such as charities, as well as collective investment schemes to the extent that the income is distributed to holders of participatory interests therein, will not be subject to tax on the dividends or other distributions.

Taxation on a Disposal of the Shares

The excess of the selling price over the cost will be subject to CGT in South Africa. Technically there is no separate tax on capital gains in South Africa, and the expression "CGT" is used colloquially. Capital gains are determined in terms of the Eighth Schedule to the Income Tax Act No 58 of 1962 and a proportion of those gains (for example, 25 per cent in the case of a natural person and 50 per cent in the case of a company or a trust) is simply added to taxable income from other sources and taxed at ordinary income tax rates. The effect of including only a portion of the gains in taxable income is that the effective tax rate on capital gains is lower than on ordinary income.

Any capital loss will be able to be offset against any other capital gains (but not against ordinary income), and failing same, carried forward indefinitely.

If a South African resident Shareholder holds at least 20 per cent of the Participating Shares and held the shares for a period of at least 18 months prior to disposal (or if the Shareholder is a company and the shares were acquired by that company from any other company forming part of the same group (as defined) and both such companies in aggregate held the interest for more than 18 months), and the shares are disposed of to a person who is not a resident of South Africa, any capital gain or loss on disposal must be disregarded.

As a general rule, persons who are exempt from tax, as described above, will also be exempt from CGT (though, in the case of a collective investment scheme, there is an outright exemption and not merely if the gain is passed through to holders of participatory interests therein).

Controlled Foreign Company

Should South African residents between them hold more than 50 per cent of the Participating Shares; the Company will be a controlled foreign company. In computing whether more than 50 per cent of the shares are held by South African residents, any person holding less than 5 per cent will not be taken into account.

If the Company is a controlled foreign company, depending upon any relevant exemptions that may be available, the profits and capital gains will be taxable in the hands of the shareholders, with credit being given for any foreign taxes paid. In this regard, only a resident who, together with any connected person, in aggregate holds 10 per cent or more, will be so taxable.

Stamp Duty

As the Participating Shares will not be traded through a South African stockbroker nor will any change in beneficial ownership of the shares be effected by a participant in a central securities depository in South Africa, no uncertificated securities tax (i.e. stamp duty) will be payable under the Uncertificated Securities Tax Act No. 31 of 1998 on the transfer of ownership of any shares.

Donations Tax

Where any Shares are donated by a South African resident, donations tax at the rate of 20 per cent will be payable on the market value of the shares donated, except if a specific exemption applies (for example, the donation is to one's spouse or to a qualifying public benefit organisation, such as a charity).

Estate duty

Should any Shareholder die while owning Participating Shares, the market value of those shares will fall into his or her deceased estate. Subject to any of the deductions and exemptions that are available, estate duty in terms of the Estate Duty Act No. 45 of 1955 will be payable at the rate of 20 per cent.

8 Exchange Control

Mauritius

Exchange control laws and regulations have been suspended in Mauritius since 1994 and in any case, the Fund is a global business company and therefore not subject to any exchange control restrictions in Mauritius. Any payments made to or by the Fund are therefore not restricted by the exchange control regulations.

The Fund will have to comply with the exchange control regulations of the countries where the investments are envisaged.

8.1 Anti-Money Laundering

Mauritius

The Fund is required to comply with the applicable anti-money laundering legislations in Mauritius, including without limitation, the Financial Crimes Commission Act 2023 (the "Financial Crimes Commission Act"), the Financial Intelligence and Anti-Money Laundering Act 2002 ("FIAMLA 2002"), the Mutual Assistance in Criminal and Related Matters Act 2003, the United Nations (Financial Prohibitions, Arms Embargo, Travel Ban) Sanctions Act 2019 and the Anti-Money Laundering and Combatting the Financing of Terrorism and Proliferation (Miscellaneous Provisions) Act 2019, and may be required to comply with the Financial Reporting Act 2004, and the regulations made under those acts (collectively, the "Acts"). As a result, the Fund may have to disclose to the relevant authorities any information which they require pursuant to the Acts, and the Fund may have to report any suspicious transactions. Under the Financial Crimes Commission Act, an offence of money laundering carries a fine not exceeding 20 million Mauritius rupees (approximately \$433,500) and a term of imprisonment not exceeding 10 years.

To ensure compliance with the Acts and the Anti-Money Laundering and Countering the Financing of Terrorism Handbook (the "Handbook") issued by the FSC, the Administrator will require certain information and documents about an applicant for Shares for purposes of verifying the identity of the applicant, the source of funds and to confirm that the application monies do not represent directly or indirectly, the proceeds of any crime. The request for information may be reduced where an applicant is a regulated financial services business based in Mauritius or in a jurisdiction having equivalent Mauritian anti-money laundering laws (as set forth in the list maintained by the Financial Action Task Force ("FATF") on its website having no AML deficiencies) or in the case of public companies listed on the Stock Exchange of Mauritius or stock exchanges in countries not having anti-money laundering deficiencies (in accordance with the FATF website).

In the event of any delay or failure by an applicant to produce any information required for verification purposes, the Administrator may refuse to accept the application and the subscription monies relating thereto or may refuse to process a redemption request until proper information has been provided. Investors should note specifically that the Administrator reserves the right to request such information as may be necessary in order to verify the identity of the investor and the owner of the account to which the redemption proceeds will be paid. Redemption or other distribution proceeds will not be paid to a third party account.

The Administrator may, at any time, request such additional information as may be required to comply with the Fund's reporting obligations in Mauritius.

In addition, in accordance with the FIAMLA 2002 and the regulations issued thereunder and the Handbook, the Fund will appoint a money laundering reporting officer ("MLRO") and deputy money laundering reporting officer ("DMLRO"). The initial MLRO will be [], and the initial DMLRO will be []. The duties of the MLRO will include receiving and evaluating internal suspicious transactions reports and, where appropriate, filing these with the Mauritius Financial Intelligence Unit ("FIU"). Persons connected with the Fund are required to report any suspicions of money laundering to the MLRO. If requested by any relevant authority including the FIU, the MLRO may pass on information about any applicant for Shares to any such regulatory authority. It is a term of the subscription that any applicant will be deemed to have consented to the passing on of such information to any such authority.

To ensure compliance with the Financial Intelligence and Anti-Money Laundering Regulations 2018 (the "FIAML Regulations") and the Anti-Money Laundering Handbook, a compliance officer shall be appointed at the senior management level (the "Compliance Officer") to ensure the Fund's implementation of and ongoing compliance with internal programs, controls and procedures with the requirements of the FIAMLA 2002 and the FIAML Regulations.

The functions of the Compliance Officer include ensuring continued compliance with the requirements of the Acts and regulations, subject to the ongoing oversight of the Board of Directors and senior management, undertaking day-to-day oversight of the program for combating money laundering and terrorism financing, regular reporting (including reporting of any non-compliance) to the Board of Directors and senior management, and contributing to designing, implementing and maintaining internal compliance manuals, policies, procedures and systems for combating money laundering and terrorism financing.

Data Protection

Mauritius

The Fund and the Administrator are subject to the Data Protection Act 2017 of Mauritius and provisions of the European Union's General Data Protection Regulation (as applicable) and are required to observe certain data protection principles when processing and handling personal data of living individuals. Personal data of or relating to investors shall be collected and processed for the purposes of such investors' subscription to the Fund, the operation and administration of the Fund, in furtherance of the business objective of the Fund and other purposes pursuant to law, the Subscription Documents and the Constitution.

By subscribing to Shares, every Shareholder consents to the Fund and/or the Administrator collecting, processing, storing and disclosing and transferring (including cross-border) personal data relating to the Shareholders for the purpose of servicing its investment in the Fund and any obligations under the Fund Documents. The Fund and/or the Administrator may disclose to each other, to any governmental or regulatory body, to a delegate, agent or any other service provider in any jurisdiction, including those outside of the U.S., copies of the subscriber's subscription application and any information concerning the Shareholder provided by the subscriber to the Fund and/or the Administrator. Any such disclosure will not be treated as a breach of any restriction upon the disclosure of information imposed on such person by law or otherwise.

The Fund and/or the Administrator may share information, as a normal part of business operations, with service providers that perform administrative services for the Fund. In all instances, Shareholder information shall be used for its intended purpose. Additionally, the Fund and/or the Administrator may provide information about a Shareholder to third parties, such as in response to a subpoena or to comply with an inquiry by a government agency, regulator or law enforcement authority. Each Shareholder shall promptly inform the Fund and the Administrator if there has been any change in the information provided by it to the Fund or the Administrator.

The Common Reporting Standard

Mauritius

The Common Reporting Standard ("CRS") has been developed by the OECD as the new single global standard for automatic exchange of information and involves the transmission of taxpayer information by the source country to the residence country concerning various categories of income. Mauritius has implemented CRS from January 1, 2017.

Pursuant to the CRS, Financial Institutions ("FI") (e.g., investment entities, custodial institutions, depository institutions and specified insurance companies) that hold financial accounts on behalf of their clients are required to determine the tax residency of the account holders (individuals holding a financial account). Where the account holders are not resident for tax purposes in Mauritius, the FI has the obligation to report information on those account holders (subject to the account being a reportable account) annually to the local tax authorities, the Mauritius Revenue Authority.

Non-FI do not have reporting obligations under the CRS but may have to disclose information to other FI.

Since January 1, 2017, all entities treated as tax residents in Mauritius must comply with CRS.

Each Shareholder, on acquisition of the Shares, will be required to provide such information and/or documentation as the Fund, in its discretion, deems necessary or appropriate to be able to comply with its obligations under CRS, including any self-certification form.

In the event that a Shareholder fails to provide information requested by the Fund, the Fund shall have full authority to take any action it deems appropriate to ensure that it remains compliant with the CRS requirements, including, but not limited to, reporting the Shareholder as an undocumented account to the Mauritian Revenue Authority.

If circumstances change and any information provided earlier becomes incorrect, each Shareholder is expected to notify the Fund of such changes and provide updated information and documents. Even if a Shareholder has already provided information/documentation in relation to FATCA, such Shareholder will still have to provide information under CRS as a separate requirement.

9. FEES, CHARGES AND EXPENSES

9.1 Organization Expenses The Fund will treat its organizational costs and expenses in accordance with the internationally recognized accounting standards the Fund has adopted. The Fund and for each Class of Shares issued, will be responsible for all of the necessary expenses of its operation including, without limitation, fees in respect of borrowed moneys, the cost of maintaining the Fund's registered office, the Fund's annual Government fees, brokerage commissions, legal and auditing expenses, marketing expenses, secretarial, accounting, fund administration, income tax, investment-related consultants and other service provider expenses, investment related travel costs, expenses incurred with respect to the preparation, duplication and distribution to the Shareholders and prospective Shareholders of Fund offering documents, annual reports and other financial information and similar ongoing operational expenses. Fees and expenses that can be identified as being attributable to a particular Class only will be charged to that Class in computing its Net Asset Value. Other fees and expenses will be charged to the Fund as a whole or otherwise in the discretion of the Board Organization Expenses will exclude any fees related to VT Dominion Holdings ICVC.

9.2 The Directors wish to limit the Fund's total Organization expenses listed in 9.1 to a maximum of 90 basis points per annum of the NAV in relation to each share. It is envisaged that as the Fund grows its NAV over time, that this percentage rate will fall at the discretion of the Directors.

9.3 Fees of the Administrator

For performing and supervising the performance of corporate and administrative services necessary for the operation and administration of the Fund and for acting as Registrar and Transfer Agent and Company Secretary, the Administrator will receive its customary monthly fee for each Share Class. This fee will be paid monthly in arrears and will form a part of the maximum fee referred to in 9.2.

The Administrator will also be reimbursed for all reasonable out-of-pocket expenses agreed to in advance with the Company.

9.5 Other Fees and Operating Expenses

The Fund bears all other expenses incidental to its setting up, operations and business, including (i) fees and charges of custodians, (ii) interest and commitment fees on loans and debit balances, (iii) income taxes, withholding taxes, transfer taxes and other governmental charges and duties, (iv) fees of the Fund's Administrator, legal advisers and independent auditors, (v) Directors' fees and expenses, (vi) the cost of maintaining the Fund's registered office, (vii) the cost of printing and distributing this PPM, any other marketing cost and any subsequent information memorandum or other literature concerning the Fund and subscription materials and any reports and notices to Shareholders, (viii) consultant and other services provider expenses deemed desirable in the sole discretion of the Directors, (ix) the costs incurred in connection with any listing of the Shares, if such listing is deemed desirable by the Shareholders, (x) the cost of insurance premiums (if any), including, without limitation, the cost of director and officer liability insurance policies, (xi) the Fund's annual Government fees; and (xii) all similar ongoing operational expenses. Each Director of the Fund who is not an officer or employee of the Administrator or related companies may receive fees from the Fund for serving in such capacity. All Directors will receive reimbursement of reasonable travel (provided such travel is undertaken at the request of the Company and the costs are agreed in advance with the Company) and other reasonable costs incurred in connection with their services. The Other Fees and Operating Expenses referred to above that can be identified as being attributable to a particular Class will be charged against that Class in computing its Net Asset Value. Other fees and expenses will be apportioned between all the Classes in such manner as the Directors in their discretion deem just and equitable.

10. ACCOUNTS AND INFORMATION

The Company's fiscal year-end is May.

The Annual Meeting of the shareholders of the Fund shall be held every year at the registered office of the Fund or at any other place in Mauritius as may be specified by the notice of the meeting.

Special Meetings of Shareholders shall be in accordance with the Constitution of the Fund at such time and place in Mauritius as may be specified by the notice of the meeting.

Notice of any Meeting of Shareholders shall be mailed by registered letter to each registered Shareholder that is entitled to receive notice of a Meeting of Shareholders, at least 21 Business Days prior to the meeting or sent by electronic means and would be taken to have been received by the Shareholder on the date that it is transmitted.

The Fund will furnish annual audited financial statements to its Shareholders. Shareholders will be sent copies of the audited financial statements prior to the Fund's annual general meeting each year prepared in accordance with the internationally recognised accounting standards adopted by the Fund. In addition, Shareholders will receive from the Administrator unaudited monthly reports relating to their relevant Class of Shares.

11. RISK FACTORS

Prospective investors should give careful consideration to the following risk factors in evaluating the merits and suitability of an investment in the Fund. The following does not purport to be a comprehensive summary of all of the risks associated with an investment in the Fund. Rather, the following are only certain risks to which the Fund is subject and that the Fund wishes to encourage prospective investors to discuss in detail with their professional advisers.

11.1 New Enterprise; Potential of Loss

An investment in the Fund entails a relatively high degree of risk. There can be no assurance that the Fund will achieve its investment objective or that the strategies described herein will be successful. Given the factors that are described below, there exists a possibility that an investor could suffer a substantial loss as a result of an investment in the Fund.

11.2 Reliance on Key Personnel

All decisions with respect to the investment of the Fund's capital will be made by the Directors. Shareholders will have no right or power to take part in the management of the Fund. As a result, the success of the Fund for the foreseeable future will depend largely upon the ability of the aforementioned individuals and should any of them resign, die or become otherwise incapacitated for any period of time and should the replacement (if any) for any of them not equal his or her predecessor's performance, the profitability of the Fund's investments may suffer.

11.3 No Current Income

The Fund's investment policies should be considered speculative, as there can be no assurance that the Director's assessments of the short-term or long-term prospects of investments will generate a profit. In view of the fact that the Fund will probably not pay dividends, an investment in the Fund is not suitable for investors seeking current income for financial or tax planning purposes.

11.4 Risk of Early Losses

If the Fund begins trading under market conditions which result in substantial early losses, the risk of the Fund having to terminate its trading will be substantially increased. The Fund could experience substantial cash flow difficulties were its assets to be depleted early, particularly in view of the charges to which the Fund is subject. The Fund may commence trading operations at an unpropitious time resulting in significant initial losses.

11.5 Merger and Other Arbitrage

The conclusion of mergers, exchange offers and cash tender offers can be prevented or delayed by a variety of factors. Offers for tender or exchange offers customarily reserve the right to cancel such offers in a variety of circumstances, including an insufficient response from shareholders of the target company. Even if the defensive activities of a target company or the actions of regulatory authorities fail to defeat an acquisition, they may result in significant delays, during which the Fund's capital will be committed to the transaction and interest charges may be incurred on funds borrowed to finance its arbitrage activities in connection with the transaction.

Exchange offers or cash tender offers are often made for less than all of the outstanding securities of an issuer, with the provision that, if a greater number is tendered, securities will be accepted on a *pro rata* basis. Thus, after the completion of a tender offer, and at a time when the market price of the securities has declined below its cost, the Fund may have returned to it, and be forced to sell at a loss, a portion of the securities it had previously tendered for.

In most forms of corporate reorganization, there exists the risk that the reorganization may be unsuccessful (for example, for failure to obtain requisite approvals), may be delayed (for example, until various liabilities, actual or contingent, have been satisfied) or may result in a distribution of cash or a new security the value of which will be less than the purchase price to the Fund of the security in respect of which such distribution was made.

In arbitrage transactions, certain events including corporate restructurings, corporate actions or unexpected announcements by management may have an adverse effect.

In certain transactions, the Fund may not be hedged against market fluctuations or, in liquidation situations, may not accurately value the assets of the company being liquidated. This can result in losses, even if the proposed transaction is concluded.

11.6 Risk Relating to Size of Issuer

There is no limitation on the size or operating experience of the companies in which the Fund may invest. Some small companies in which the Fund may invest may lack management depth or the ability to generate internally or obtain externally the funds necessary for growth. Companies with new products or services could sustain significant losses if projected markets do not materialize. Further, such companies may have, or may develop, only a regional market for products or services and may be adversely affected by purely local events. Such companies may be small players in their industries and may face intense competition from larger companies and an investment in such companies may entail a greater risk than investment in larger companies.

11.7 Concentration of Investments

From time to time a significant portion of the Fund's capital may be concentrated in a particular security, Fund, industry, market or country. Should such security, Fund, industry, market or country become subject to adverse financial conditions, the Fund's capital shall not be afforded the protection otherwise available through greater diversification of its investments.

11.8 Exchange Rules

Each securities exchange typically has the right to suspend or limit trading in all securities that it lists. Such a suspension would render it impossible for the Fund to liquidate positions and, accordingly, could expose the Fund to losses. Similarly, the Directors have the right to suspend or limit redemptions when, in their opinion, the Fund's net assets are not sufficiently liquid to fund redemptions.

11.9 Leverage

The Fund is authorised to borrow money to fund redemption requests when deemed appropriate by the Board. The loans to the Fund are collateralized with Class securities that may decrease in value and so the Fund may be obliged to provide additional collateral to the lender in the form of cash or securities to avoid liquidation of the pledged securities. Any such liquidation could result in substantial losses. Moreover, counterparties of the Fund, in their sole discretion, may change the leverage limits that they extend to the Fund.

11.10 Illiquidity of Shares

Transfers of Shares are restricted; there is no market for Shares and accordingly, Shares may be disposed of only through the redemption procedures described elsewhere in this PPM. Under certain circumstances, such redemption procedures may entail a significant delay in redemptions.

11.11 Distributions/Redemptions in Cash or Kind

The Fund is not required to distribute cash or other property to the Shareholders, and the Fund does not intend to make any such distributions. Notwithstanding the foregoing, the Fund may, in its discretion, settle redemptions in kind.

11.12 Notice Required

A Shareholder must give prior written notice to the Administrator to make a partial or total redemption of its Shares. During such notice period, the Shareholder's investment remains at risk and may decrease in value from the date that notice of redemption is made to the Administrator until the effective date of redemption.

11.13 Compliance and Legal Requirements

The Fund must comply with various legal requirements, including requirements imposed by the securities laws, tax laws and pension and other laws in various jurisdictions. Should any of those laws change over the scheduled term of the Fund, the legal requirements to which the Fund and the Shareholders may be subject could differ materially from current requirements.

11.14 Institutional Risk and Custodial Risks

The institutions, including brokerage firms and banks, with which the Fund (directly or indirectly) does business, or to which securities have been entrusted for custodial and prime brokerage purposes, may encounter financial difficulties that impair the operational capabilities or the capital position of the Fund.

11.15 Reserves

Under certain circumstances, the Fund may find it necessary to establish a reserve for contingent liabilities or withhold a portion of the Shareholder's settlement proceeds at the time of redemption, in which case the reserved portion would remain at the risk of the Fund's activities.

11.16 Forced Liquidation

Substantial redemptions by Shareholders within a short period of time could require the Directors to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the Fund's capital. The resulting reduction in the Fund's capital could make it more difficult to generate a positive rate of return or to recoup losses due to a reduced equity base. Additionally, such substantial redemptions would result in the remaining Shareholders proportionally bearing a greater percentage of the Fund's fees and expenses.

11.17 Litigation and Claims

The Fund, as independent legal entity, may be subject to lawsuits or proceedings by government entities or private parties. Except in the event of a law suit or proceeding arising from a Director's wilful default or fraud, expenses or liabilities of the Fund arising from any suit shall be borne by the Fund.

11.18 Need for Independent Advice

The Fund's Directors have consulted with counsel, accountants and other experts regarding the formation of the Fund. Each prospective investor should consult his/its own legal, tax and financial advisers regarding the desirability of an investment in the Fund.

11.19 Registration

The Fund is not registered as an investment company under the U.S. Investment Company Act of 1940, as amended (the "Company Act"), (or any similar state laws). Investors, therefore, will not be accorded the protective measures provided by such legislation.

11.21 Cross Class Liabilities

The Company is expected to have different Classes of Shares with different investment objectives and strategies. In the event that a particular Class suffers severe losses such that the liabilities of such Class exceeds its assets, creditors of that Class may be permitted to seek to recover from the assets of all the Classes of the Company. There can be no assurance that steps taken by the Board of Directors of the Company to minimize this risk will successfully eliminate any cross Class liability risk.

11.22 Currency Risks

The Fund's initial class of shares will invest in DH which itself will invest in major currencies around the World, which may be subject to exchange rate fluctuations against the US Dollar with consequent reductions in the US dollar denominated Net Asset Value. Foreign currency exposure will not normally be hedged. The repatriation of capital may be hampered by changes in local regulations concerning exchange controls or political circumstances.

11.23 Economic and Business Conditions

General economic and business conditions may affect the Fund's activities. Interest rates, the prices of securities and participation by other investors in the financial markets may affect the value of securities purchased by the Fund. Unexpected volatility or liquidity in the markets in which the Fund directly or indirectly holds positions could impair the Fund's ability to carry out its business and could cause it to incur losses.

11.24 Risks in relation to Intervening Countries

Where the Company's investments are held or made through vehicles established in another country, the value and performance of investments and returns thereof may be affected by the political, economic and regulatory conditions of that country.

11.25 Risks of Taxation

The section on Tax Aspects is a summary of taxation law and practice in force in the relevant countries at the date of this PPM and is subject to changes therein and is not exhaustive. Levels and bases of taxation in the relevant countries may change. Where investment is made through a Mauritius entity, the repeal or amendment or adverse interpretation of the Mauritius Double Taxation Treaty may adversely affect the performance of the investments and thus the value of the Company.

11.26 Risks from Illiquidity

The Shares are not listed or dealt in on any stock exchange and no application for listing on any stock exchange is anticipated. In addition, no market maker in the Shares has been appointed. It may be difficult therefore for an investor to sell or realise his/its Shares otherwise than as provided in the Articles, the Constitution and this PPM. In addition, the Company may make redemption payments to certain Shareholders in specie. Shareholders receiving redemption payments in specie may incur brokerage costs in converting such securities to cash. Such conversions will be subject to the market risks set forth above. A subscription for Shares should therefore be considered only by persons financially able to maintain their investment for an extended period of time and who can afford the loss of all or a substantial part of such investment. If redemptions or other distributions are affected in kind, investors may be required to bear the economic risk of ownership of such investments for an indefinite period.

11.27 Risks in relation to Investment Structure

Where the Company's investments are held or made through entities established in another country the Company may be subject to risk of financial loss of part/whole of their assets in the event of the bankruptcy, winding up, judicial management, liquidation, or any such similar adverse event affecting such entity.

11.28 Winding up

On a winding up, whether as a solvent or an insolvent company, the liquidator will distribute the assets of the Company in accordance with the Law and the Constitution. The liquidator may choose to meet the liabilities of one Class from the assets of other Classes. This may result in a partial or total write-down in the NAV of Classes.

11.29 Limitations on Control by Members

Members have no right to require that a Class of Shares of the Company be invested in a particular manner. The Directors of the Company may under certain circumstances (as outlined in the Constitution) postpone or mandate redemptions of particular shareholders and may impose or remove investment limitations on the Company as a whole or on any particular Class of the Company. The Directors shall at their sole discretion determine the voting rights (if any) for Participating Shares of a new designated Class and may issue Shares with no voting rights. Furthermore, any Share transfer requires the approval of the Board of Directors of the Company. These limitations on the rights of Shareholders may adversely affect the Shareholders' ability to implement their desired investment strategies or decisions.

12. MATERIAL CONTRACTS

The Fund has entered into the following contract (not being contracts in the ordinary course of business) which may be material:

- (A) An Administration Agreement between the Fund and the Administrator pursuant to which the Administrator was appointed administrator and registrar and transfer agent, and Company Secretary in respect of each Class of the Fund.

The Fund may enter into additional material contracts in respect of a particular Class and details of these shall be set out in the relevant Supplement. The Fund may also enter into marketing agreements with approved financial institutions in various jurisdictions as a means to promote the Fund.

12.1 General Information

12.1.1 Available Documents

This PPM is not intended to provide a complete description of the Fund's Constitution or the agreements with the Administrator and various brokers summarized herein. Copies of the following documents are available for inspection by Shareholders and prospective investors during normal business hours at the Administrator's office:

- (A) The Companies Act, 2001 of Mauritius (as amended);
- (B) The Constitution and Certificate of Incorporation of the Fund;
- (C) The material contracts referred to above or in any Supplement;
- (D) The Global Business Licence; and
- (E) The Tax Residence Certificate.

12.1.2 Counsel

The legal counsel mentioned in **Section 2** titled “**DIRECTORY**” serve as counsel to the Fund, in connection with legal matters pertaining to their relevant jurisdiction and may serve as counsel to other investment funds.. Counsel to the Fund do not represent the Shareholders.

12.1.3 Enquiries and Communication with the Fund

All communications and correspondence with the Fund and enquiries concerning the Fund and the Shares, including information concerning subscription and redemption procedures and current Net Asset Value, should be directed to the Administrator at the address set forth in the “**DIRECTORY**”.

13. POTENTIAL CONFLICTS OF INTEREST

The Administrator and their respective affiliates, which shall be deemed to include, in each case, their respective officers, directors, employees and entities owned by any of the aforementioned parties (the “Related Parties”) may face certain conflicts of interests in relation to the Fund.
